This is an application for judicial review of Order M-845, made by the Information and Privacy Commissioner (Ontario) disclosing to Global Health Care Services Inc., information submitted to the Regional Municipality of Ottawa-Carleton by the Applicant.

We are satisfied the application for judicial review be dismissed. We find no error in law. The Commissioner gave the provisions of s. 10(1) of the *Municipal Freedom of Information and Protection of Privacy Act* an interpretation it can reasonably bear. It is our view the decision of the Commissioner is entitled to a high degree of curial deference.

No costs.
